### APPEAL

Dear,

Federation of European Psychodrama Training Organisations (FEPTO)  
<http://www.fepto.com>

Psychodrama Association for Europe e.V. (PAFE)  
<https://psychodrama-for-europe.eu>

Centro Zerka Moreno  
<https://centrozerkamoreno.net>

International Association for Group  
Psychotherapy and Group Processes  
<https://www.iagp.com>

We, the Psychodramatists of Ukraine, address you as organizations that greatly influence and regulate the activity processes of many Institutes and Specialists practicing the Psychodrama method.

Since the invasion of the Russian armed forces into Ukraine on February 24, 2022, a full-scale war has been going on for more than 147 days. Targeted shellings kill thousands of civilians, the country's infrastructure undergoes major destruction, and the psychological state of the population is extremely difficult. This is a violent act against the independence of a sovereign Ukrainian state. This war has already reshaped relations and many processes in the whole world.

Thus the world unites to look for ways to stop the actions of the aggressor country.

At a time when there is a great threat to the whole nation there can be no place for silence and neutrality as it might mean ignoring or identifying with the acts of brutal violence that occur on the international level.

Up until now, we have not heard an official position from your organizations on the situation, as certain European psychotherapy communities and organizations have.

We are convinced it is unethical and immoral to be neutral about violence and explicit attack on all possible humanistic values. It is also traumatic for Ukrainians now to be in the same group or space (especially online) with representatives of the aggressor country - citizens of the Russian Federation.

**Therefore, we urge you to refrain from neutrality and define your position regarding the actions of the Russian Federation against Ukraine and introduce sanctions against the aggressor country. Heren we mean namely:**

- **suspend cooperation with representatives of the Russian Federation - both with organizations and with private individuals;**
- **deprive representatives of the aggressor country of membership in your organizations.**

**It is possible to stop the violence - it is necessary to give a clear name to this act.**

**We are waiting for an official response from you.**

Sincerely,

Psychodramatists of Ukraine
